

AMS-STD-595 (previously FED-STD-595) colors are preferred due to broad usage. However, we do match suitable color chips in any color.

The following list indicates our active stock colors. For surface finish, precede the color code (shown as [] brackets) with G (Gloss), S (Semi-gloss), or L (Lusterless). AMS-STD-595 lists the 10,000 series as gloss (G), 20,000 series as semi-gloss (S), and 30,000 series as lusterless (L).

The colors listed are active and are in stock and available for production. Inactive colors not listed may be available after re-activation. Please contact the Stake Fastener Sales Department for more information.

STOCK COLOR LIST

| COLOR CODE | DESCRIPTION | COLOR CODE | DESCRIPTION |
|------------|----------------------------|------------|-----------------------------------|
| | BEIGE | | |
